# What do you know about that?...

"What do you know about that?" How often you hear a newspaper reader ask this question! It's largely a rhetorical question, of course, because the newspaper reader already knows ALL about whatever

The primary purpose of the newspaper is to supply the ANSWERS to the questions that most interest and most concern people. Questions as close to home as next year's local tax rate. Questions as far afield as what is happening on the other side of the world . . . which may none the less directly bear on your future.

Your answer to the question, "What do you know about that?" is likely to depend on how closely you read your newspaper . . . for accurate and complete information on everything that it is important for

Two of Belleville's minor teams will see action CNRA Park Saturday in OBA and OASA playdowns.

The bandam baseball isam will clash with Oshawa in the first game of a two-of-three series at 2.00 p.m. The local kide outder Friedresung in their first round, two gaties to one, but expect lough opposition from the Oshawa clab. The kids play a good brand of ball and will appreciate some vocal support from the dained.

Booth TVs, Lee Culsare's battling softball hantamsiaks over the park at 5.10 for the second game of their series against Onhaws Samzyldes, Belleville won the opener last week, although outhil, by a 4.1 zoore in Othows. Like their hardball buddles, the kids will be hoppy to see the stands full.

The pair are well known here for their terrific brawls inst each other and tonight's bout should be no exception.

Fans will be looking for Timmy Geoghan to use his fam-is "Irish sleeper" against Bob Mandor in the opening bout at ne o'clock.

When Ray Judd of Lakefield Charitons threw a no-hitter against the Bobcats here last week he missed a perfect game by one man, when an error put Batchelor on base in the fifth.

Judd made the grade, however, against Oshawa Hefferings this week when he downed them 4-0, retiring 27 men in a row and striking out 22, in the series opener in Oshawa. The Charlions, teld by Bobby Crowe's bat once again, collected 12 hits off Trd Jones.

Meanwhile Orchard Park of Peterborough, downed hawa Merchants 3-1 in their Senior "B" opener, with Bill shoney throwing four-hit ball.

And while on softball, Belleville and Oshawa Juven-lles did not play their deciding rame last night, as cr-ronnously indicated via our sports calendar yesterday. They will likely meet Tünşday or Wednesday next week.

Sunday afternbon's game here, scheduled for 2.18, will be first in a two-of-three-series, while the second will be played in Peterborough Monday. It had, not been decided at this writing whether the Medday game would be played in the afternoon or at night.

Peterborough is said to have a strong hitting crew with power well distributed throughout the lineup. Larry Sodes will draw the pitching assignment: for Selleville in Sunday's till here, while Pai Asselstine will fixtly get the nod in Monday's affair. Jack Zilieti, Sill Astehord and Glin Dilizari are other mound obelone.

Bobby Hunter and Jim "Sleepy" Dawe are expected to pick up where they left off Wednesday night when the Bobats and Cobourg Merchanis book up at CNEA Park Monday afternoon.

The Labor Day fixture will be the fifth game in the best seven series for the Bill Ott Trophy and the Belleville fiball League championship.

### PLENTY OF ACTION

Besides the two big series, Juniors and Peterborough and Bobcats and Cobourg, there is plenty of other sporting activity on tap for the district on this final long weekend of

w number.

This afternoon you have the Oahawa and Believille bantam baseballers at the CNRA (it started at 2.00 pm.) while at 5.30 Booth TV's and Oshawa hook up at the name park in bantam sortball.

Trenton Haistran's will go all out under the lights in Trenton at 8.36 tonight in the second game of their double "A" series with Richmond Hill. The Terosic club took the opener 4.3.

Also on the menu tonight are the go-kert races at Shan-ville Parkland Specheway at eight o'clock. And if you are satisfied just to watch, remomer you can' rent karis both yourself and the kids any day or evening there.

With the hunting season not too far away, the sainty Trap and Gun Club will likely be a busy place tomorrow as district shot-gunners sharpen up their shooting eyes at the regular weekned event.

Laws Bowlers of the area will be competing in the Canada Rex Spray Trophy (men's doubles) all Brighton today, then taking over the Belleville club for Vohn Shaw Memorial Trophy play on Labor Day. That also is men's doubles competition.

Bay of Quinte golfers will naturally be active over the weekend with the opening of the new nine tomorrow. It's a big day with a dinner, opening ceremonies and such to celebrate the completion of the 18-bole course.

It looks like a good weekend for campers and fishermer, before settling down for the long fall haul.

Make it a good weekend but make sure it's a safe one on highways and waterways.

It should be Bobby Green against Bolly Campbonight, unless either Temple or Matthews decides to the pitching rotation. Temple and his Tebbies have backs up against the wall and the Merchants would lik thing better than to finish them off tought. It should disn't fifty commencing at \$1.5.

If a seventh game is necessary, and the 'Oats are positive it will be, it will be played at the CNRA Park coming weekend, either Friday or Saturday evening.

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

I think Ontario Bassball Association first vice-president sck kCarson knows that, and I believe hundreds of addict the game in than baseball-bunger jety will welcome it. I think that within the next three, four, at the most five years, sender bakeball will spain be one of this city's major sports, with the added attencions of Sunday games towed in.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

"I am not sure I like the set-up. It would be much better if Whilipy came in, and better still if Stamford (near Niagara) was a sixth entry".

Gordie Bell was speaking of the new two-divisi-ior league established by the OHA at a special meeti

The McFarlands are grouped with Welland-Crow-land, Galt and Oakville in the eastern division. In the western division are Windsor, Chatham, Stratford, Strathroy and Woodstockk.

Believille, Chatham and Windsor are the only senio s of a year ago. The rest are of senior "B" calibre very highly in their category.

The McFarlands were placed in the four-team east-res division act-up without the consent of the manage-nent. The club was not represented at the London meet-ng. The news came as a surprise to Coach Gordie Bell.

Some time ago the Whitby Dunlops through their mr Wren Blair announced their withdrawal from sen key. The high cost of transportation was given as the re by Mr. Blair.

It seems that roadblock has been removed with cormation of the new eastern division. There will be no be tauls to Windsor, Chatham and Kitchener like last year.

There is no reason now, if Blair really wants to enter the Dunless in the new set-up, why Whilby aboutd not enter. In fact it would not surprise this department if some of the players took matters in their own hands and onter a club.

The report of the London meeting states that Stam-ford also, is a possible entry. With Whitby and Stamford in the eastern division, it would make a neat six-team package, with Welland and Stamford the longest hauts Both those piscoes are in the Niagara perinents. However Coach Bell of the McPariands is not in-send with the four-team set-up. It was done withounts a knowledge, he said, but added he would consider the all if Whithy and/or Stanford or both were entered.

Spaining of Whitby, Manager-coach Blair of the Easte Pro Kingston Frontenace has taken but three of the Dunlo for tryouth with the Bruiss fame club. These are Alfie Tree Ted O'Connor and Fred Eicher. Even if this trio does mal the grade there are enough Dunloys left to form the mosel of another strong club.

Some will say the new set-up, if it goes into here, will produce a poorer brand of hockey than t senior "A". But don't forget we saw some pretty or clashes here last winter when its Macs were in the

RARE, MEDIUM, WELL-DONE

By Geo. H. Carver, Sports Editor Belleville diamond teams face imports th one championship at stake.

A cooky confident Cobourg Merchania team relis into town this early evening for the all important seventh and deciding game for the Belleville and District Softball League champioushby, and the Bill Ott Trophy.

They face a claw-bared bunch of Bobeats in a duel that naxes six games of high-geared softball complete with one and goats, champs and near-champs with the result square at three games each.

Bob Temple has his Cats roady for the fray which should be one of the metical settled little to the season. Both club have what it takes offenzively and detensively mad the joint could narror down to the point where a break one way or the other could actile the frame.

It could be a heavy-clouting affair since both sides have artillery or it could develop into a tight mound duel be both clubs have the flingers.

Temple may start his right.bander see Bobby niter against the hungry Merebants, but that is not inite at this writing. The visiting mentors will, in all bability, toos their see Sleepy Dawe at the Cat hitters.

The game gets underway at the CNEA Park at five viclock and should draw the largest softball crowd of this season. The precentation will likely follow the game and the Cata hope it will be theirs to hold for the second straight season in a new

The Junior major "A" Kenmors trek to Peterbor-tonight where they meet the Peter junior club in the id game of their best-of-three OBA playdowns.

The Believille youngsters, playing brilliant busebal scied the Poics 6-6 here in the first game last Sunday creat me Foods 4-0 nere in the first game last 3 on that performance they should take the ser as in a row. But they are not selling the Feies abort. They, too, have a lot of baseball no could very well square the series tonight.

As far as the Polerborough-Kommors are concerned they are builting in the junior major "A" semi-finals as well as for the Eastern Outsrio championnhip, in the oth-or broades Hamilton Optimize med Kitchmer in west-ern semi-finals. So a victory for the Kemmors ionight will posh them into the Outsrio championship article.

Larry Soden, who performed brilliantly on the mound for Kenmors last Sunday will likely get the nod again. He ided but three hits in the first game besides whiffing even and walking three with a week's rest he should be e to go the route again.

Seven could be the lucky number for Lee Culbane's taken softballers this afternoon. They defeated Others Coboury to out the Motor City crew and the right to et North North in the sont finals. The first pains of a series started at the CNRA Park here today at three

OPEN LETTER TO MR, JACK DICKENS, MANAGER, MEMORIAL ARENA

This match, according to the rasslin' grapevine, will max a long, long from between the Fride of East York I the Chief of the Bouncer Staff of the Toure

Now as you know, there is no feud like an old feud.
And this, is, pry ophism, is the puper attraction of
the current wrestling sinson, one that should top anything seen in year laking TAJ Minhal, since Branzy fearwith Jean Kalassine of defeat the Manked Marvel and
her East McCreedy the night Franklin D. Reservelt was
elected to Ms croon term.

You may not know it but you've got your own band right there in Memorial Arena with you.

Accordoon George, the paper-picking meestre of the mat could lead the combe. You've got Jehnny Livyé who can make a bull-fiddle mee like a lovenick tree, year-old before.

They could salute the Whip with "I usta love you, but all over," and pay irrbute to the "Hotchs Kid Demby" in "Hotchs gones keep bles down on the mat after they've sted three."

"State Watson, the needla."
As a per-boat silencities, you could have the Jish-isson Brows, Dian and Doublic, Australian Fred Al-bias and Merchan Mikhyl Turas, alone with Rankyl Yeas, Kalaniael rand three gais from the nodience do a United Nations Incodewry, Iran Kawalakit, as friend of mine jost over from Feland, will call off. He decen't speak Eag-lish, but what's the difference. Get a couple of Histonia Idadies to shay the two pipes for the satcharing—and it would be go peried setting.

Seriously, it should be quite a battle. This feud busi-ess has been hanging fire for a long time and as you know almost broke out into something serious last Friday night efore the Whip cammando'd Bunny into bye-bye.

It might not be so easy this time. Benny is a big man, strong, with plenty of intestinal fortified hidden in its emboupoint. He neither greats nor grouns but could his swn battle cry in the form of "Hother". This he can so to seven different keys, from as many different can so to seven different keys, from as many different

But the Whip has feelings on his side zs well as wrest-ling ability. 'He might humiliate La Bunny by turning him over on his turnmy and rocking him to sleep.

Bui I likhi the Whip is reing to have his hands full, whichever way you look at it. And I don't believe Beany will back-pedal. Ner will he run. The last time he did the hundred if took him 35 minutes.

That's all for now, Jack. See you after the brawl is r. If you need me the night of the fight I shall be in new press box with the door looked—on the unide.

No corner of the world is so remote that it cannot make NEWS that will affect your life. None is distant that it can escape prompt and thorough coverage by world-wide news and photo organizations dedicated to the one purpose of bringing you ALL the news you should know with accuracy and dispatch . . . in the pages of your newspaper. World-wide news, assembled, composed, printed, and delivered to your doorstep (or at your newsstand) with clocklike regularity is a newspaper service which most people take for granted . . . but which is basic to the understanding which is should have of the fast moving events that can occur ANYWHERE ... to influence the future of people EVERYWHERE.

# What do you know about that?

"What do you know about that?" How often you hear a newspaper reader ask this question! It's largely a rhetorical question, of course, because the newspaper reader already knows ALL about whatever

The primary purpose of the newspaper is to supply the ANSWERS to the questions that most interest and most concern people. Questions as close to home as next year's local tax rate. Questions as far afield as what is happening on the other side of the world . . . which may none the less directly bear on your future.

Your answer to the question, "What do you know about that?" is likely to depend on how closely you read your newspaper . . . for accurate and complete information on everything that it is important for you to know.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Wren Blair's statement that the withdrawal and ultimate ath" of the noted Whitby Dunlops senior "A" club, was to heavy transportation costs in the new senior hockey up, seemed to be a reasonable ercus.

True, the Believille McFarlands represented by Coach refie Bell and manager Keith MacDonald also left the ellar for the same reason but their's was a legition-one. After all, it is only 30 miles from here is differ, and an additional 160 miles over and above what Dunlegs would have to travel.

The fact that the Dunloy directories and spanners telluters their operation, was not do see much to the triken out of transportation, as to the fact the Dunloys and operated at a bary deficil incl season, and they were at, so to speak, "bolding the financial bag." "To fire that the Dunland were playing to packed bouses at so, were definitely not true," he said.

"We would have rone out and raised money through rious projects, instead of having to wait until Blair de up his mind. As of now we will try to do these may on very short notice."

He told this department after the meeting, he was highly illdent the new team would get a sponsor. Two seemed be reacting favorably, with the new flannical set-up far ferent to that of the former senior "A" days.

Air knows that the future of senior hockey in a tarlo hangs on his decision. He and his mates w y hockey—and play in the castern division.

He gave the meeting a definite sincere impression would do all he could to have an entry ready within week or ten days.

"There will be no league,"

And that if the way it will be unless the OHA can up another entry somewhere. And I doubt if the Parkands will agree to play the role of the lone Eastern acts will in a set-up of western and central Oniarie

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor There'll be no Buc-passing in the National Bar League if Danny Murtaugh, the Pirates and thousan wildly-enthusiastic Pittsburg fans have anything to do

But they would rather recall that heetle series of 1925 en the Bucs of that year won a thrilling 4-3 series over the shington Sensiors.

The Boot have their flag virtually wrapped up. But that doesn't stop the smoly faithful from pouring through the turnstilles. Last Sunday some 20,000 piled into the join in a pouring rain that eventually wiped out a double-header.

But he's all alsons in this just as someone precision he would be when he said, "I dev't know where the Braves will finish, but I'm sure Dressen will finish for games about of them."

Meanwhile over in the junior league things are be-coming tenser every moment. The big thing over the week-end is that four-game series between the Men 'o Casey and Paul Richards fleedjings from the Oriole nest in Baltimore. That series got under way last night.

### Sport Slices ...

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor "He's usuily the hardest man in baseball to pitch to. Next to him is Eddle Yost of Detroit and them Gene woodling of Baltimore. But Williams, he's in a class by himself, possibly the greatest hitter I ever asw."

Who was speaking?"

I've got news for those Xankee-lovin' hombres. Pat O'Mosra, Micky Moresu, Tommy Mascaro, our man Mr. Alexander, "Cuffer" Noakes, Don Dolan and others.

It was "the fellah that hid the bird in his cap," old maestro, Mr. Casey Siengel.

Which proves that unlike some of the Yankee faithful r. Stengel knows a baseball player when he sees one.

The venerable skipper of the Yankee Clippers was talkin the recent four-game sweep of his Bronx Blasters ove too-eager beavers wearing the plumage of the Baltimor

"The trouble with them kids," Ole Case remarked his now famous Stengelese, "is that they're into a mp and they don't figure to snap out of it because y're over-oager. They wort' wait for a walk. They ng at bad pitches. They just can't coulain their

"He was a tall gangly kid and I believe he hit only about 230, but you had to be blind not to see that this ids had it. He had the most beautiful swing, even then." Dancy said.

"On my roommendation," the Yankee manager re-ted, "the Braves offered five players for Williams. The Diags club was receptive but they were obligated to the Collins, them general manager of 'the Red Sex. the Sex didn't take him, we could have him."

"That's when he broke his left ellow crashing into the wall while making a catch. I knew he was burt the maluret he came in and I told him he had enough and for him to get the arm declered up. He took a couple of practice swings and he winced every time he moved that arm, but he asked to be allowed to hit one more.

"Weil," said Casey, "all Williams did for me was hit a line single—with a broken arm. That's the kit of a guy Tod Williams is.

He calls the "Sliver" the greatest judge of balls strikes be had over seen. He is said to have the fi pair of eyes in baseball. After all, a guy who can the label on a 75 rpm record travelling top speed scarcely be called blind.

The story of Casey and the famous "bird-in-hat" is wor the re-telling. It says that as a left-handed hitting outlield he had become a big favorite with the Dodger fans. Aft, spending almost half of hit 12-year playing career in Brool. Jyn, he was traded to Pittzburg.

The Ebber's Field faithful roundly boord Casey on his first appearance as a Firste. As he stepped into the batter's box. Stengel raised his hand. The umpire called time and Casey doffed his hast to the crowd.

A sparrow escaped and finitered across the infield, sey had given his erstwhile admirers the literal "bird."

There are rumors around the American League that Case; viii retire after this season, pennant or no pennant, works eries or no world series.

The Stengtis are financially well situated. Casey is an official in a Giendate, California, bank and has often remarked he has a zood pension plan with the Yankees. His annual income is estimated at \$30,000.

The life or death warrant of the eastern division of the ario Hockey Association senior hockey league, will likely signed on Sunday.

OHA past president Lorne Cook, convener of the group, told this department resterday that prospects of a Whitby entry looked good and a definite answer would probably be ferthoeming at a meeting of the group scheduled for Toronto tomorrow afternoon at 2.35.

If Whithy does enter and the league comes into being, McFarlands open here against Whithy on Friday, Oct and play in Whithy the following night.

If the arens ice is available early next week and cospects for that look good at the moment, the Mace till have little loss than four weeks to get into some ind of playing shape.

Moe Beneit and Kenny Gribbons have been working out in the Kingston Frontenacs Eastern Pro League squad, but understand Beneit did not make the Quebes and other one tele for exhibition games.

It should be remembered that all thub both east and west, agreed to sign eight players of sector "A" billity. And it also should be remembered that the top sentor "B" clube in Western Oniario last year gave the Chatham Marcons and the Windsop Bulldors all they could do to accounge out victories.

It should be good, fast hockey, just as good as some of the tilts seen here last winter. A half step down the ald-der, perhaps, but it will give out with its share of thrills and whatnot.

whatnot.

Let's face the facts. After the inroads of the pricking over of Klichener last year and the unfort: Instance, as far as Western Ontario clubs were med, of the "round-robia" playoffs, senior bocker; by to be alive—if it is alive in these parts.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Six or seven years ago we were watching a group of shall youngsters cavorting on a city diamond. They nondescript uniforms and had only two baseballs to play n. They buzzed over the field like a swarm of bumble-s looking for their queen.

But there was a something like pride in the eyes of their coach Vio Mérris. "Mark my word," he said, "these kids some day will ge places. They'll make the people of this city sit up and take nelice."

Two or three weeks ago we watched the same bevy ballchasers, now grown to junior age, as they warmed up a semi-finals battle with a Peterborough junior club.

Spake Prophet Morris: "If we get by the Petes we'll win the Junior Major "A" championship.

These men have seen to II that the youngsters needed nothing in the way, of equipment and other coulty facilities. True they had some return from two playdown gates here but it was a drop in the expenses bucket.

It was a drop in the expenses bothet.

We are not suggesting the city fathers use the tax-payers' money for tangible tribute. But the least they can do is turn an official head in the general direction of the Kenmors with a murmured "Thank you. Well

Also a nod to the South Hastings League. III did towards keeping the Kenmors fit, ready and in shape tough playdowns trail.

And to that young Hamilton cookerel who joered to Kenmora. "You gure only played in a bush loague all more," we might say that the club which swept his m saide in two straight games without too much able, finished second in that "bush league" sizanding.

### Is This the Way to Set a Speed Limit?

John S. Trew, a representative of the Ontario Obpartment of Highways, made an interesting statement no at Monday's meeting of the City Council. That body an interesting statement are more than the council of the City Council of the was considering the question of whether speed limits resolved be increased on highway afteries leading into or out of—the city. Mr. Trew said that the practice by out-in considering raised speed limits in outlying urban meht de areas was to check the speed of motorists and set the its best to the best speed limit at the average which 85 per cent of the an art an storicte travel

d jims as the consist travel.

Without in any way taking a stand on the local without in a stand on the local with a stand on the local without in a stand on the local with a stand on the local with a st on both sides—we have some misgivings about the system outlined by Mr. Trew.

Even with the provision that the speed limit shall good be the average speed of 85 per cent of the motorists clar rather than of all the motorists—we presume to prevent a few speed demons influencing the rate—does not this system come close to saying that the average motorist to drives at a reasonable and safe speed? We think it he drives at a reasonable and safe speed? We think does. Now this is a highly debatable conclusion There are some conditions under which the majority of motorists do drive at a sane rate—but there are also other conditions where the majority of us, if we are and honest, will confess that we are reckless

We would be willing to wager that, if a check were made, it would be discovered that the average speed of made, it would be discovered that the average speed of motorists learning a city is higher than the average speed of motorists leaving the city, over the self-same stretch or road. After highway speeds, most of us are apt to take too long to slow down. After driving, in congested traffic in the heart of the city, we take a little longer to resume highway speed.

sittle longer to resume highway speed.

Almost all our know that a great many traffic accidents occur during the first few days of winter than later in the season. This may be partly to the fact that we melorists have forgotten the knack that the season of the season

hours is likely to proceed at a faster rate than a man on a short trity on a short trity on the state of the same of the same

### A Step in the Right Direction

The General Council of the United Church recent-ly refused to back a proposal to raise the legal age for marriage. This is most commendable especially since the facts seem to indicate that the natural trend of things is for people to marry younger now than they did a few decades ago.

What really enthused us however was the council's reason for its refusal, which was that it left it had no right to urge legislation which would limit the free-dom of non-members of the United Church. This seems to be democratically sound especially since only 5.7 per cent of Canadians belong to the United Church.

In view of this we trust that the United Church, will retract its campaign so vigorously championed by Dr. Mutchmore who feels that the other 94.3 per cent of Canadians should be curtailed in their individual decision as to where, when and what to drink because he or some other abstainer might be offended by it.

There is an old saying, "Seek and ye shall find." Many feel\_that the United Church is finally finding the right/path as far as maturity within a democratic society is concerned if it adheres to the above decision conscientiously.

Here is a general view of the Hartings County match competition. The match was sponsored by the plowing match scene at the Don Cook farm at West Hartings County Plowmen's Association to encourage Hantington. The match drew 31 esternats from county local competition in next year's International Match high schools, few of whom had even seen previous to be held at Belleville.

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

That haymaker brought up from right field by professional sockey bruisers to the Jaw of the Kitchener Dutchmen, did not have the knockout punch it was at first thought to have.

True, it stagerred the Dutchners and they have been going around with sagging knoes and glamy eyes, but recent events reveal that they are up and around and 'Dell with the count of ten.

Former Dutchie manager Ernie Goman, and some of the players, ably assisted by the Wattrieo Arena Com-mission, have administered smelling mile and the crat-while webbly Dutchmen may yet come up for another bout in the annateur ranks.

out in the amstern reason. And you can give Butch Martin a great big assist for the overation of his old club, Butch had thoughts of turning feasional at one time, and this fact toused cold water on hopes of the Dutchmen staging a resurrection from the r dead. A lot of the players iost interest. Butch is to now and at the helm of the new ship.

Now the bright sun of hope shines warmly over the tichener senior hockey sceee. The most of the "eld sichies" have railied to the flar and at the moment ouperts for an entry in the Omiario senior hockey agus's castern division look exceptionally bright.

Actually the only thing holding up an entry at this ment, and Dutchmen officials do not think if a too loss matter, is the coming to agreement with the Wai-se Shkins Junier "B" club on playing nights.

It seems the Stikins always played home games on urday night. The Dutchmen also want Saturday night es. Hockey men believe matters can be arranged, werever they must act quickly for the entry deadline has n set for tomorrow.

"in fact," mid Jim, "the whole district is centring is players of any oxiegory you want to mention."

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Thanks to one Thomas Griffin McClishan Hockings of his venerable baseball helricom, the first Baseball sar Book published in 1911 we discovered how the good of game started.

In England the ball-happy youngsters were playing rounders. In America a pitch-and-toss game was called "fowmball" because it was played only in the metropolitan centrus.

The number of players on a side varied from six twenty. There were five bases. The ball was made soft elastic material such as wound yarn, a "sturgeo nose" and later hollow rubber.

The pitcher was known as the "thrower" or "giver." or eather stood close behind the bat, but he had a "scout" sasist him. There were no foul balls. Anything that so off the bat was a hit.

Then one day in New York the crude form of pre-sent day baseball came into being. The bers were leasting and betting a ball around when a gentleman manod Alex J. Cartwright stopped and said "I'll abore you a botter game." He picked up a stick and scratch-ed a disasped in the dust.

"The bases shall be from home to second base, 42 paces; from first to third, 42 paces, and from home to pitcher not less than 15 paces."

"The game will consist of 21 counts or aces but at the clusion an equal number of hands may be played.

"The ball must be pitched, not thrown for the bat." "A ball knocked out of the field, or outside the range se first or third base, shall be foul."

"Three balls being struck at and-missed and the last caught is a handout; if not caught considered fair and striker bound to run."

"If a ball be struck, or tipped, and caught either flying on first bounce, it is a handout."

"A player running who shall prevent an adversary from catching or getting the ball before making base, is a bandout."

'No are or base can be made on a foul strike." "A runner cannot be put out in making one base when balk is made by the pitcher."

"One base is allowed when a ball bounds out of the grounds after being struck."

In 1835 the game was fairly innehed and it became the local spect of Manhatian. The Pelo Grounds came into being. A dosen teams from Manhatian, Brooklyn, Heboken, and other elles about New York played home and home matches, a newspaper said.

A New York sportswriter of those days wrote: "The spirit and practise of the game was purely amadeur. Zhese young fellows, many of them from old Knickerbock. Yamilies, played for fun. Challenges were formal affairs. A committee met to arrange the details and to choose two umpires and a resferse, "positions of great dignity,"

Underneath the skin, it's all muscle. The Uni-Gard body is as strong as a girder. The oversized brakes are the largest in its class — for quicker
